MAJOR MILESTONE

Lighting & Equipment Public Company Limited operates a fully integrated business in lighting products, from research and product development, has its own IEC/ISO 17025 accredited laboratory and ISO 9001 accredited manufacturing factories as well as distributes the products to all customer groups in domestic and abroad. In addition, the company provides various services for maximum benefit to customers, i.e. recommend proper products including provide lighting designs for each application, as well as offer rental products and rental lighting systems for various events. The company has diverse and complete range of lighting products that can meet the requirement of all customer groups. i.e. residential, office, commercial building, department store, showroom, retail store, museum, manufacturing factory, warehouse, historical structure, public park, stadium, street, airport, advertising box, etc.

Lighting Innovation Center

Lighting Innovation Center is an up-stream facility to research and innovate new products for the company. The facility comprised of the laboratory accredited with ISO/IEC 17025 in 2007 that can provide fully integrated test on performance and safety for lighting products

In addition, the facility has the state of the art prototype machine and experienced product innovation team that are able to rapidly and diversely innovated new products responding proactively to the market requirement. At present, the company has registered more than 56 Intellectual Properties, and believes that it will be constantly increased every year

L&E Manufacturing Co.,Ltd

L&E Manufacturing Co.,Ltd. (Chaengwatana Factory) Manufactures a complete ranges of lighting luminaire, in particular the LED lighting luminaires for buildings and for manufacturing factories. The factory is accredited with ISO 9001 and manufactures products in accordance with TIS product standard: TIS 902/2015.

L&E manufacturing Co.,Ltd. (Noppawong Factory) Manufactures the interior and exterior lighting luminaires as well as various lighting poles. The quality management system of the factory fully meets the ISO 9001 standard and the environmental management system meets the ISO 14001 standard

L&E Solid State Co.,Ltd.

L&E Solid State Co.,Ltd. is a fully integrated manufacturing factory that has well established research and development process and manufactures complete ranges of LED products such as LED modules, LED lamps, LED drivers and LED luminaires. The company's quality management system fully meets the ISO 9001 standard and the environmental management system meets the ISO 14001 standard

L&E Assembly

Warehouses and Distribution Center have a total space of more than 16,000 square meters. We have an efficient warehouse management system which enable us to control, monitor and investigate the receipt of inventory into the warehouse, proper keeping of the inventory and delivery of the inventory from the warehouse by the latest computer system. We have a complete facilities that enable us to operate our job rapidly and efficiently. In addition, the distribution center is located at the convenient area and enable the company to distribute products to customers with efficiency.

Warehouses & Distribution Center

Warehouses and Distribution Center have a total space of more than 16,000 square meters. We have an efficient warehouse management system which enable us to control, monitor and investigate the receipt of inventory into the warehouse, proper keeping of the inventory and delivery of the inventory from the warehouse by the latest computer system. We have a complete facilities that enable us to operate our job rapidly and efficiently. In addition, the distribution center is located at the convenient area and enable the company to distribute products to customers with efficiency.

LED ACCENT

SLA01

LED ACCENT LIGHT

Durable and sturdy LED Accent Light in a fine aluminium housing for exterior and landscape installation with compacting shape, but high luminous efficiency. Various choices of beam angle and 2W power LED, SLA01 is suitable for both landscape and architectural applications.

Material :

Die cast aluminum housing and toughened glass.

Finishing :

High quality powder coated.

Driver :

Remoted 24 Vdc constant voltage driver, PWM driver (dimnable)

Life Time : 50,000 hours

Ambient Temperature : 0°C ~ 50°C

IP Rating : 65

Ra : ≥ 80

Factory Supplied Cable :

2C x 1 mm², L = 1.00 m

Control : on-off, 0-10 V, DALI

Weight : 0.25 kg

Accessories

2-Way

3-Way

Junction Connector

Model	Watt	CCT. (K)	Beam Angle	Color	Input (V)
SLA01	2W	3000K (120lm)	15° 25° 40°	Silver Black	24 Vdc

SLA02

LED ACCENT LIGHT

The multi-purpose LED Accent Light in a fine aluminium housing for exterior installation with compact shape, but high luminous efficiency. Various choices of beam angle and 4.8W power LED, SLA02 is suitable for both landscape and architectural applications.

Material :

Die cast aluminum housing and toughened glass.

Finishing :

High quality powder coated.

Driver :

Remoted 24 Vdc constant voltage driver, PWM driver (dimnable)

Life Time : 50,000 hours

Ambient Temperature : 0°C ~ 50°C

IP Rating : 65

Ra : ≥ 80

Factory Supplied Cable :

2C x 1 mm², L = 3.00 m

Control : on-off, 0-10V, DALI

Weight (kg) : 0.5 kg

Accessories

2-Way

3-Way

SLA03

LED ACCENT LIGHT

Luminaires are designed for accent and wall washing applications. Options for beam angles and LEDs per luminaire provides flexibility to fit various applications. High illumination quality and flexibility to fit a wide range of architectural lighting applications.

Material :

Die cast aluminum housing.

Finishing :

UV-resistant polyester exterior powder-coating

Driver :

Integrated constant voltage driver with thermal and overload protection or Remote 24Vdc constant Voltage Driver.

Life Time : 50,000 hours, L70 @ 25°C

Ambient Temperature : 0°C ~ 50°C

IP Rating : 65

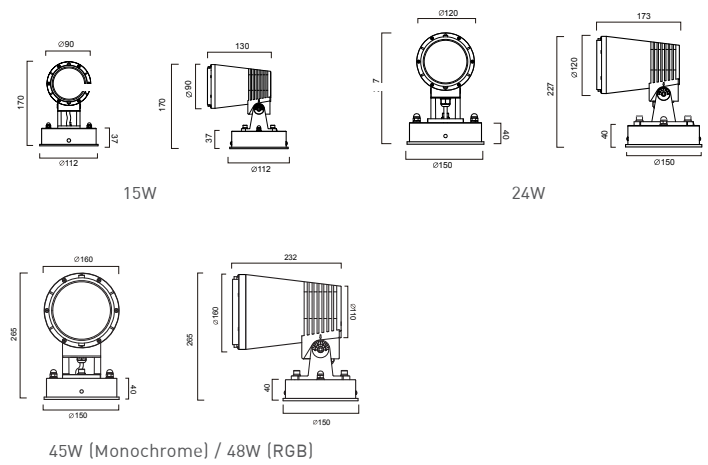

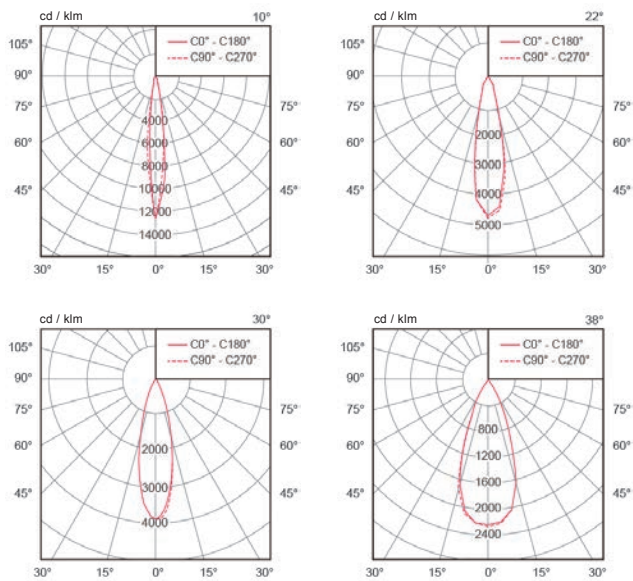

Ra : ≥ 80

Factory Supplied Cable :

3C x 1 mm², L = 2.00 m, (Monochrome)
4C x 0.75 mm², L = 2.00 m, (RGB)

Control : on-off, DMX (RGB)

Weight (kg) : 1.2kg (15W), 2.5kg (24W), 4.1kg (45W, 48W)

SLA04

LED ACCENT LIGHT

Durable and sturdy LED Accent Light in a fine aluminium housing for exterior and landscape installation with compacting shape, but high luminous efficiency. Various choices of beam angle and 11.5W power LED, SLA04 is suitable for both landscape and architectural applications.

Material :

Die cast aluminum housing and toughened glass.

Finishing :

High quality powder coated.

Driver :

Remoted 24 Vdc constant voltage driver, PWM driver (dimmmable)

Life Time : 50,000 hours

Ambient Temperature : 0°C ~ 50°C

IP Rating : 65

SLS01

LED FLOOD LIGHT

Basic shape and clean lines distinguish a successful range of luminaires as mini special, now also available as a flood light for creating lighting effects on facades, walls and green areas. A complete series of products, which fully meets the needs of architects and landscapers in their projects.

Material :

Die-cast Aluminium with 4mm tempered glass.

Finishing :

UV-resistant polyester exterior powder-coating

Driver :

Integrated driver with thermal and overload protection

Life Time : 50,000 hours, L70 @ 25°C

SLS3144

LED FLOOD LIGHT

SLS3144 LED Floodlight is an energy efficient and high performing external luminaire with a performance output of over 120 lm/W and full range symmetrical and asymmetrical light distribution. Along with its compact design, it offers flexible mounting options and easy installation. suitable for general flood light, exterior lighting, billboard light car park or facade lighting.

**Material :**

Die cast aluminum housing and toughened glass, finished with powder coated

Finishing :

UV-resistant polyester exterior powder-coating

Driver :

LED MEDIA FACADE

D'LUCK

SMF209

LED MEDIA FACADE

SMF209 is for designers and installers who need maximum flexibility from static color and RGB LED technology to create unique solution. SMF209 use the same core technology as our standard products but are presented in a compact PCB format to enable installation with lightboxes, curves conics features and light sculptures. SMF209 is supplied with simple plug and socket connections and adhesive mounting tape for direct fixing to a metal surface.

Material :
Plastic ABS

SCN303

LED MEDIA FACADE

The node luminaire transforms any static facade into a dynamic media facade. In addition to generating colors and other effects, the intelligent control system also allows running a sequence of moving pictures. The media luminaire is suitable for decorative media illumination indoors and outdoors. The luminaire is supplied with simple plug and socket connections.

Material :

Aluminum body designed as shape heatsink heat dissipation and die-cast aluminium front panel with Clear-flat or Opal-dome front cover.

Finishing :

Powder-coating

Driver :

Remote 24 Vdc constant voltage driver

Life Time : 50,000 hours, L70 @ 25°C

LED LINEAR

SLF01

LED LINEAR LIGHT

SLF01 is the leading edge luminance of the linear RGB module. The unquestionably powerful luminous flux with real uniform color coverage especially on formerly large-scale architectural element.

**Material :**

Die-cast aluminium body with toughened front glass.

Finishing :

UV-resistant polyester exterior power coating

Driver :

Integrated 48 Vdc constant voltage driver

Life Time : 50,000 hrs, L70 @ 25°C

Ambient Temperature : -25°C ~ 45°C

IP Rating : 65

Ra : ≥ 80

Factory Supplied Cable :

2 x 0.5 m for Power cable with connector (IN/OUT) (monochrome)

2 x 0.5 m for Power and Data cable with connector (IN/OUT for RGBW)

Control : on-off, DMX

Weight (kg) : 4.0 kg (75W), 7.6 kg (150W)

Accessories

* Lumen refers to 150W

Caution : Do not make any connection while the power is turning on! This action may cause the product damaged.

SLF02

LED LINEAR WALL WASHER

SLF02 is a surface mounted linear LED light featuring, superb light distribution designed for true wall grazing effect. SLF02 can be installed in any position and in any orientation, featuring IP65 weather protection along with a compact size and a light weight manageability.

Material :

Extrusion aluminium body, die – casting aluminium end cap, toughened front glass

Finishing :

UV-resistant polyester exterior powder-coating

Driver :

Integrated 48 Vdc constant voltage driver

Life Time : 50,000 hrs, L70 @ 25°C

Ambient Temperature : -20°C ~ 40°C

IP Rating : IP65

Ra : ≥ 80

Factory Supplied Cable :

2 x 0.3 m for Power cable with connector (IN/OUT) (monochrome)

2 x 0.3 m for Power and Data cable with connector (IN/OUT for RGBW and Dynamic white)

Control : on-off, DMX

Weight (kg) : 6.2 kg/m

Accessories

Model	Watt	CCT. (K)	Beam Angle	Color	Input (V)

		Dynamic White 2700K-6500K (6764lm)*			

* Lumen refers to 76W

Caution : Do not make any connection while the power is turning on! This action may cause the product damaged.

SLF03

LED LINEAR WALL WASHER

SLF03 is a smart and compact solution for the widest variety of outdoor architectural lighting application. The technologically advanced SLF03 linear modules series features high brightness LED lightsource in both monochrome and RGB .

**Material :**

Extrusion aluminium body, die – casting aluminium end cap, toughened front glass

Finishing :

UV-resistant polyester exterior powder-coating

Driver :

Remote 48 Vdc constant voltage driver

Life Time : 50,000 hrs, L70 @ 25°C

Ambient Temperature : -20°C ~ 40°C

IP Rating : IP65

Ra : ≥ 80

Factory Supplied Cable :

2 x 0.3 m for Power cable with connector (IN/OUT) (monochrome)

2 x 0.3 m for Power and Data cable with connector (IN/OUT for RGBW and Dynamic white)

Control : on-off, DMX

Weight (kg) : 1.9 kg/m

Accessories

Model	Watt	CCT. (K)	Beam Angle	Color	Input (V)
SLF03	7.2W (L=300mm)	3000K (2040lm)*	20°	Grey	48 Vdc

		RGBW (1048lm)*	20°x40°		
		Dynamic White 2700K-6500K (2136lm)			

* Lumen refers to 24W

Caution : Do not make any connection while the power is turning on! This action may cause the product damaged.

SLF248

LED LINEAR WALL WASHER

SLF248 is the high luminance of controllable LED linear wall washer. Control is achieved conveniently via industry-standard DMX interface. Compact and durable extrusion aluminium housing combined with mounting accessory, SLF248 is suitable for all applications in wall washer effect.

Material :

Extrusion Aluminium Body with toughen front glass

Finishing :

UV-resistant polyester exterior powder-coating

Driver :

Remote 48 Vdc constant voltage driver

Life Time : 50,000 hrs, L70 @ 25°C

Ambient Temperature : -20°C ~ 40°C

IP Rating : 65

Ra : ≥ 80

Factory Supplied Cable :

2 x 0.3 m for Power cable with connector (IN/OUT) (monochrome)

2 x 0.3 m for Power and Data cable with connector (IN/OUT for RGB, RGBW and Dynamic white)

Control : on-off, DMX, PWM

Weight (kg) : 0.5 kg (15W), 1.0 kg (30W)
1.5 kg (45W), 2.0 kg (60W)

Accessories

Feeder Cable L = 30 cm

Caution : Do not make any connection while the power is turning on! This action may cause the product damaged.

SLF624

LED LINEAR WALL WASHER

SLF624 is a high performance linear LED luminaire for grazing or flood lighting exterior walls and facade, the luminaire is available in 0.5 m and 1.0 m sections. Luminaire that make it easy to conceal and integrate into architectural facades. Various colour temperatures, many range beam angle. Providing exceptional uniformity and brightness for walls and signage.

**Material :**

Extrusion Aluminium body with toughen front glass

Finishing :

Silver Anodised

Driver :

Remote 24 Vdc constant voltage driver

Life Time : 50,000 hrs, L70 @ 25°C

Ambient Temperature : -20°C ~ 40°C

IP Rating : 65

Ra : ≥ 80

Factory Supplied Cable :

2 x 0.3 m for Power cable with connector (IN/OUT)

Control : on-off, 0-10V, DALI

Weight (kg) : 0.5-1.0 kg

Accessories

SLB6036

LED LINEAR LIGHT

SLB6036 offers excellent performance for achieving direct or indirect general lighting and cove lighting applications. The luminaires are available in 0.3 m, 0.5 m, 1.0 m and 1.2 m easier to installation with brackets and plug-and-play dc connectors.

**Material :**

Extrusion Aluminium housing with clear/opal pc front cover.

Finishing :

Silver Anodised

Driver :

Remote 24 Vdc constant voltage driver

Life Time : 50,000 hrs, L70 @ 25°C

Ambient Temperature : -20°C ~ 40°C

IP Rating : 20, 65

Ra : ≥ 80

Factory Supplied Cable :

2 x 0.3 m for Power cable with connector (IN/OUT)

Control : on-off, 0-10V

	12W (L = 1000mm)	6500K (1160lm)*			
	14.4W (L = 1200mm)				

* Lumen refers to 12W model and clear pc front cover.

Caution : Do not make any connection while the power is turning on! This action may cause the product damaged.

SLB01

LED LINEAR LIGHT

SLB01 is a linear light specially designed for the illumination of cove lighting, shelf display lighting. Available length in 0.3 m, 0.5 m, and 1.0 m, SLB01 provide continuous, light effect without dark spots.

Material :

Extrusion Aluminium body with opal PC front cover

Finishing :

Aluminium Anodizing

Driver :

Remote 24 Vdc constant voltage driver

Life Time : 50,000 hrs, L70 @ 25°C

Ambient Temperature : -20°C ~ 40°C

IP Rating : 20

Factory Supplied Cable :

2 x 0.1 m for Power cable with connector (IN/OUT)

Control : on-off, 0-10V

Weight (kg) : 0.2 kg

Model	Watt	CCT. (K)	Beam Angle	Color	Input (V)
SLB01	3.6W (L = 300mm)	3000K (962lm)*	110°	Silver	24 Vdc
	6W (L = 500mm)	4000K (1053lm)*			
	12W (L = 1000mm)	6000K (1118lm)*			

* Lumen refers to 12W model.

Caution : Do not make any connection while the power is turning on! This action may cause the product damaged.

LED LINEAR FLEX

SLX6120

LED LINEAR FLEX

SLX6120 Series is a ribbon light high performance LED strip. The durable, but-flexible product features a heavier copper board core for better heat dissipation and over long runs. Available in single row configurations ranging from 30-120 LEDs per meter with multiple power feed. SLX6120 Series feature outstanding color consistency with single color binning and CRI up to 95.

Material :

LED mounted on flexible PCB in silicone jacket

Driver :

Remote 24 Vdc constant voltage driver

life time : 50,000 hrs, (L70)

Ambient Temperature : -25°C ~ 45°C

IP Rating : 20, 65

Ra : ≥ 80

Min. Cutting Unit : 167 mm (3.5W), 100 mm (6W),
50 mm (12W)

Max. Continuous Length : 5 m

Factory Supplied Cable :

2 x 0.5 mm², L = 0.35 m

Control : DMX, on-off, 0-10V, DALI

Weight (kg) : 0.1 kg/m

SCX2060

LED LINEAR FLEX

SCX2060 is a compact size and energy efficient color changing strip light. It is easily to install directly on the surface with double sided tape or fix in the aluminium track. The durable but flexible circuit board enable the perfect fit for the color changable effect.

Material :

LED mounted on flexible PCB in silicone jacket

Driver :

Remote 24 Vdc constant voltage driver

Life Time : 50,000 hrs, (L70)

Ambient Temperature : -25°C ~ 45°C

SWX2120

LED LINEAR FLEX

SWX2120 was designed to apply with the humancentric application. 2-in-1 tunable color temperature LEDs were adopted to create the homogeneous lighting effect and suitable for cove lighting applications.

Material :

LED mounted on flexible PCB in silicone jacket

Driver :

Remote 24 Vdc constant voltage driver or PWM driver

Life Time : 50,000 hrs, (L70)

Ambient Temperature : -25°C ~ 45°C

IP Rating : 20, 65

Ra : ≥ 80

Min. Cutting Unit : 50 mm

Max. Continuous Length : 5 m

Factory Supplied Cable :

3 x 0.5 mm², L = 0.15 m

Control : DMX

Weight (kg) : 0.1 kg/m

Accessories

SLN260

LED LINEAR FLEX HORIZONTAL BENDING

SLN260 is a direct view, small profile, energy efficient and flexible LED NEON suitable for both dry & wet locations capable of horizontal bends up to 120 cm diameter. With the special design of injection end capsulation, SLN260 can achieve both seamless continuous light effect and the ingress protection rating at level 68.

Material :

LED mounted on flexible PCB in silicone jacket

Driver :

Remote 24 Vdc constant voltage driver or PWM driver

Life Time : 50,000 hrs, (L70)

Ambient Temperature : -40°C ~ 55°C

IP Rating : 20, 68

Ra : ≥ 80

Min. Cutting Unit : 100mm (RGB, RGBW)
83.33mm (Monochrome, Dynamic White)

Max. Continuous Length : 15m (Monochrome),
Dynamic White), 10m (RGB), 8m (RGBW)

Factory Supplied Cable :

2C x 0.75 mm², L = 3.00 m (Monochrome)

4C x 0.75 mm², L = 3.00 m (RGB)

5C x 0.75 mm², L = 3.00 m (RGBW)

Control : on-off, 0-10V, DMX

Weight (kg) : 0.33 kg/m

SLN261

LED LINEAR FLEX VERTICAL BENDING

SLN261 is a direct view, small profile, energy efficient and flexible LED NEON suitable for both dry & wet locations capable of horizontal bends up to 300 cm diameter. With the special design of injection end capsulation, SLN261 can achieve both seamless continuous light effect and the ingress protection rating at level 68.

Material :

LED mounted on flexible PCB in silicone jacket

Driver :

LED FIBER OPTIC

LED ILLUMINATORS

FIBER OPTIC LIGHT SOURCE

RS120LED-RP is DMX-Color Wheel Illuminator, economic and high performance LED illuminators. Our series illuminators complement the lighting System and is suitable for all sparkle lights cables and sport lights cables creating a final result that is professional in appearance and featuring in performance as well as high durability, making installation of the illuminators simple, maintenance easier and cost less.

Material :

Metal black box.

Life Time : 50,000 hrs, (L70)

Ambient Temperature : -10°C ~ 40°C

IP Rating : 20

Illuminator Port : 32mm Diameter

Minimum CRI : > 90

Factory Supplied Cable :

3C x 0.75 mm², L = 1.5 m

Control : Stand-alone, DMX, IR remote control

Weight (kg) : XX kg/m

END SPOT CABLES

FIBER OPTIC END SPOTS

End-Spot cables are made of high quality PMMA-Based compounds which encased in an Advance Polymer Compounds Black Jacket providing a safety PVC free jacket to avoid plasticizer as well as true waterproof and weatherproof performance.

Material :

High quality PMMA-Based compounds
Polymer Compounds Black Jacket (Attenuation \leq 150 dB/km at 650nm)

Ambient Temperature : $-40^{\circ}\text{C} \sim 85^{\circ}\text{C}$

CONTROL & DRIVER

0-10 VDC SYSTEM

SLC002-60/120W PWM

Range	Output	Input	Interface
1 Ch. 60-120W	PWM 12/24 Vdc	12/24 Vdc	0-10 Vdc

SLC002 is a dimmable constant voltage driver with dimmable function. Driver input is capable with 12-24 Vdc, the output is PWM with maximum 5A output. The external 0-10 Vdc signal from external dimming system will be applied to the driver to control the output

SLC002-300W PWM

Range	Output	Input	Interface
1 Ch. 300W	PWM 12/24 Vdc	12/24 Vdc	0-10 Vdc

SLC002-300W, the enhanced and more powerful of SLC002 series, is a dimmable constant voltage driver with dimmable function. Driver input is capable with 12-24 Vdc, the output is PWM with maximum 5A output. The external 0-10 Vdc signal from external dimming system will be applied to the driver to control the output

0-10 VDC SYSTEM

0-10 VDC SIGNAL REPEATER

Output	Input	Interface
0-10 Vdc 50mA (max)	220 Vac	0-10 Vdc

Repeater for converting sink/source 0-10 Vdc from control system, which is designed to be compatible with all L&E 0-10 Vdc driver, and also can be adapted to use with all 0-10 Vdc equipment in the market.

E610P 0-10 VDC KNOB DIMMER

Voltage Output	Current Output	Input	Interface
0-10 Vdc	50 mA	12/24 Vdc	0-10 Vdc

The simple knob 0-10 Vdc dimmer designed for the general function for dimming in the system of 0-10 Vdc. The analog output current is 50 mA which can normally supply to 10 – 20 drivers, depending on the distance and can use perfectly matched with L&E driver.

CONTROL & DRIVER

CONSTANT VOLTAGE DRIVER

LRS-350 CONSTANT VOLTAGE DRIVER

Range	Output	Input
12 Vdc	12 Vdc / 29 A	230 Vac
24 Vdc	24 Vdc / 14 A	
48 Vdc	48 Vdc / 8 A	

Self-Restoring protection against open circuits and short circuits on the output line

HLG-320 CONSTANT VOLTAGE DRIVER - IP65

Range	Output	Input
12 Vdc	12 Vdc / 29 A	230 Vdc
24 Vdc	24 Vdc / 14 A	
48 Vdc	48 Vdc / 8 A	

High efficiency and PF, self-restoring protection against open circuits and short circuits on the output line, Featured with the IP65 protection, suitable for all condition installation.

DMX SYSTEM

SDV04-60/120W RGBW

Range	Output	Input	Interface
4 Ch. 15-30 W	PWM RGBW	12/24 Vdc	DMX

SDV04 was designed for operating with all model of LED color changing strip and LED fixtures which need the PWM input. It is compatible with DMX512 standard protocol.

SLC007 / SLC007-IP

Voltage Output	Current Output	Input	Interface
3 Ch. 60-120 W	PWM RGB	12/24 Vdc	DMX

SLC007, the enhanced and more powerful of RGB driver from L&E, was designed for operating with all model of LED color changing strip and LED fixtures which need the PWM input. It is compatible with DMX512 standard protocol.

CONTROL & DRIVER

DMX SYSTEM

LT820-5A RGBW

Range	Output	Input	Interface
4 Ch. 60-120 W	PWM RGBW	12/24 Vdc	DMX

LT820-5A is outstanding with the OLED display to set up the DMX channel by itself. With the new technology, it can achieve 16 bit resolution in color changing, this provides the smoother effect in the color change.

DMX SYSTEM

SDX128 DMX CONTROLLER

Type	Output	Input	Interface
Black White	DMX (128 channels)	5.5 – 6 Vdc	CLAMP, Micro USB

Mode Controller, Color, Scene, and Dimmer
 The scene mode allows for a series of pre-set values to be retrieved. The Dimmer function allows for the intensity to be changed while a program is running. The Color mode allows for a series of pre-set static color to be retrieved. All functions can be configured using hardware manager (enable/disable the different mode, select starting backdrop, etc).

SDX1028 DMX CONTROLLER

Type	Output	Input	Interface
Black White	DMX (1028 channels)	5.5 – 6 Vdc	RJ45, CLAMP, Micro USB

Zone controller to activate up to 10 scenes simultaneously. Dimmer to adjust luminous intensity and saturation. Controller of up to 50 scenes with the possibility of choosing between dynamic and static. The arrows allow for the active scene to be changed. Color controller to choose among 16 million colors. The arrows allow for RGB values to be entered. Possibility of increasing or decreasing the speed of dynamic scenes and color effects.

CONTROL & DRIVER

DMX SYSTEM

MADRIX DMX SOFTWARE

Type	Output
Basic	DMX (32 Universe)
Professional	DMX (128 Universe)
Ultimate	DMX (512 Universe)

The MADRIX is the ultimate control tool for LED Lighting. Use pixel mapping at its best in 2D or 3D. With the technology of DMX512 over Art-Net, unlimited address of control can be achieved.

DMX 512

DATA GATEWAY

Output	Input Signal	Input	Connector
DMX (8 Universe)	TCP/IP (Art-Net)	220 Vac	RJ45, XLR 3-pins

Receive Art-Net protocol signal via Ethernet
